“The only thing you absolutely have to know is the location of the library.”

—ALBERT EINSTEIN

And what would we do without our library! We have access to an exceptional collection of library resources absolutely free to help us get through these long days of seclusion. Also, the program committee has been working diligently to put together a nice array of programs for the winter months. The programs span a variety of topics including Climate Change, Raptors, Asian Fusion Cooking, and more. If you need information or assistance to register and join a Zoom event, please contact the library staff and learn how easy it is to access and enjoy online programming. We look forward to seeing you online!
